

**Invitation to Bid
Village of Woodstock
Stonewall Repair
North Street
2018**

Scope of work:

Remove and replace a section of stone retaining wall that supports North Street.
Add sufficient drainage behind the wall to keep water from settling.

Pre-Bid Conference:

Monday July 11, 2018 at 9:00 am

Meet at Town Hall and travel to site.

Project schedule:

Completion date October 31, 2018.

Bid Specifications:

Contractor must keep half of the street width open to traffic at all times.

Saw cut pavement in project area prior to removal, (half of street closest to wall).

Remove guardrails during construction

Within the project area, remove all existing stones to the ground

Build a new stone wall using existing stones.

Supply and install 8' long stone tie-ins at 8' intervals along the length of the wall and 4' intervals vertically

Place filter fabric behind the stone wall

Backfill behind stone wall with crushed stone

Project will involve replacement of stone steps with stone steps in the same type, size and design as original.

Re-pave street pavement that was removed during construction with rolled hot mix w/ 2" base (minimum of $\frac{3}{4}$ " Aggregate) and 1" top coat (minimum $\frac{3}{8}$ " aggregate).

Overall length 100'

Metal tie back plate on face of wall (approx. size 12" x 12")

Tie back rod to be 1" diameter galvanized steel, and buried tie back plate to be galvanized steel

Work to be done from the street.

Trees on private yard near the wall need to be protected.

Contractor must keep the work zone safe during construction

Replace guard rails

Contractor is responsible for compliance with OSHA and VOSHA.

Contractor is responsible to pay any OSHA or VOSHA fines levied against the Village in connection with this project.

Contractor to provide a certificate of insurance in the amount of 1 million dollars with the Village of Woodstock named as an additional insured.

Pre-Bid Meeting-Wednesday, July 11, 2018 at 9AM at the Woodstock Town Hall, 31 The Green, Woodstock.

Then travel to site.
