Are there any special instructions for second homeowners/nonresidents?

New York City Residents or Recent Travelers

Now that the greater New York City area has been deemed a COVID-19 hotspot, the CDC recommends that anyone who has been in that area recently quarantine for a period of 14 days. We ask that everyone who has been in the greater NYC area of late, including second homeowners, follow the CDC recommendations in order to minimize the spread of the disease here in Woodstock. Please see the section below about self-quarantine. If you need supplies, volunteers will deliver them to your door. For assistance call 802-457-7516

All second homeowners: Please be aware that Vermont Governor Phil Scott has issued a Stay at Home, Stay Safe order, which orders everyone to limit their time out-of-doors to shopping for essentials, seeking medical care, and exercise. When outside of the home, please practice physical distancing (maintaining a distance of 6 feet from other people).
