#### Attachment for Planning Commission Application for Elisa Tarlow

#### Reasons for request appointment:

I believe that planning and zoning are the core of every town. The impact of these regulations are what shapes the town today and into the future. I believe it is essential to carefully consider every ordinance and its intended impact along with possible unintended impacts. Woodstock is a magical place, therefore we need to be thoughtful to be sure it maintains its charm and historic character during a time where there are clear housing issues which will need to be addressed. I would like to be in the front row of this discussion and encourage as many residents as possible to join in and share so that as planning and zoning issues are addressed any changes are supported by the majority of our community.

#### Special skills or qualifications:

My educational background is Biology, I did a good deal of my research on the Galapagos Islands where I gained a true understanding of untouched nature and how impactful human activities can be. This is likely a key reason that I feel so connected to the hills and untouched land around Woodstock and I understand the impact of our activities and how these impacts can trickle down through the land and waters around us. For the majority of my career, I have been involved in the real estate world, from being a real estate agent to running real estate funds of historic mixed use properties in Germany, to owning apartment buildings and a variety of houses from historic to modern. I have renovated multiple 1850-1920 historic properties and understand the value these properties have for us today. I have seen how regulation can have an impact on development, new construction and renovations, and I believe that all angles needs to be considered in zoning and planning decisions.

#### Previous volunteer experience:

Most of my volunteer experience was when I was younger and included volunteering at a retirement home, a community theatre, a local teen safe hotline and a non-profit marine mammal rescue organization. I have however more recently donated my time in my former town in Maine to support the local land conservatory organization, in addition to working with neighbors to bring local town issues to the attention of voters and encourage residents to participate in town discussions and to vote on issues.

#### Appointment Questionnaire Answers

#### Reason for request appointment:

My wife and I purchased property in Woodstock two years ago after driving through the village on a whim in 2020. We liked Woodstock and have been impressed with the town government, the citizens and institutions. We appreciate the engaged community - the ability and opportunity to talk with others, listen to varying opinions and participate in open forums including the public discussions regarding the new middle/high school. Like many others in Woodstock I feel I should also give back and be engaged and willing to put my experience to use in community enterprises such as the Planning Commission, if so accepted.

#### Special Skills or Qualifications:

I was raised in California and worked in various residential and light commercial construction projects in the 1970's. I participated in all aspects of construction from a laborer to a carpenter as well as a member of the heavy equipment operators union. In 1980, I passed the California General Contractors exam and started a general contracting business in Buena Vista, Colorado. I owned and operated the business for 7 years. I was then hired as a planner/ estimator in 1987 and moved my family to Massachusetts where I work planning, estimating and supervising various commercial projects for 7 years. While there I designed and built my home in Franklin, MA. In 1994 I was hired as Assistant Facilities Director at a small 4 year liberal arts college in the mid-west. In 2000 I was promoted to Facilities Director of the college and managed the facilities operation on a campus of 1,600 acres and a staff of 65 workers. My last focus was assisting with developing a Master Plan for the college that involved working with various constituents to understand their goals so as to develop a comprehensive master plan. The key objective was to understand constituents short and long term goals and prioritize and integrate them with the facilities department deferred maintenance and capital replacement list resulting in a master plan to be used for raising capital and communicating with the larger share holders of the college - donors, parents, academic, athletic and administrative staff and students.

#### Previous Volunteer Experience:

My volunteer experience has been largely limited to my church. Everywhere I've lived I've felt impelled to support my church in whatever capacity. Because of my construction experience I've often done maintenance work on church buildings and supporting church services. Since arriving in Woodstock I've so far only volunteered to support putting out the picnic benches around town.

# Town of Woodstock Town of Woodstock Application for Sewer Connection/Repair/Increased Discharge Commercial Application

To: Board of Sewer Commissioners of the Town of Woodstock Application is hereby made by the undersigned pursuant to the Town of Woodstock Sewer Ordinance to: New Connection Increase Repair Amount of gpd for new connection or increase (leave blank if unknown): 2292-39=2253 At the following location: Map 21 Block 53 Lot 12 Phone: 617-717-8408 Application name: Pleasant Garage LLC Street address: 67 Pleasant Street Email: eva@douzinas.com Description of work to be done: construction of a new restaurant building with variable sewer flows. Maximum sewer flows will be 2292 GPD for an 82-seat cafe/restaurant with 6 employees during summer/fall. Off-season seating is limited to 64 seats indoor. Refer to attached table of design flows. Sewer design assumes an interior undercounter grease interceptor for the restaurant kitchen. Number of employees: varies, max. 6 If restaurant, number of seats: max 34 82 If hotel/inn, number of rooms: n/a If store, square footage of location: n/a

Applicant agrees to install low flowing plumbing fixtures. Further, applicant agrees to be responsible for repairing or replacing any damage done to Town sewer lines, streets, roads, and/or sidewalks and to see that said repair/connection is done in accordance with the applicable Town Sewer Regulations or as determined by the Municipal Manager. The applicant also agrees to hold the Town and Village harmless from any damage/injury caused to a third party. The applicant agrees to pay the designated application fee to the Town at the time of the application for this permit

and to advise the Director of Public Works in advance of construction to permit scheduling of the repair inspection. (See below for fee schedule)

Applicant must obtain easements from all affected landowners if any part of the sewer line passes on lands of another landowner.

By signing this application, I understand that I also need to obtain a potable water supply and wastewater permit from the State of Vermont - Contact the State by telephone at (802) 591-0338 or by email at terry.shearer@vermont.gov

Additionally, I understand that once the connection is made, I am required to submit an "as built" drawing of the actual connection prepared by the installer to the Town of Woodstock before the permit is issued.

designated application fee to the Town at the time of the application for this permit and to advise the Director of Public Works in advance of construction to permit scheduling of the repair inspection.

Applicant must obtain easements from all affected landowners if any part of the sewer line passes on lands of another landowner.

See below for fee schedule.

By signing the application. I understand that I also need to obtain a potable water supply and wastewater disposal permit from the State of Vermont.

Contact the State by telephone at (802) 591-0338 or by email at terry.shearer@vermont.gov

Additionally, I understand that once the connection is made, I am required to submit an "as built" drawing of the actual connection prepared by the installer to the Town of Woodstock before the permit is issued.

Town Hall Working Group update April 16, 2024

The Town Hall Working Group has met a handful of times since our formation in December. The following work has been completed:

- At our board meeting in December, we were tasked with defining the affordability criteria
  for the options to be evaluated. Our Working Group decided the best measure of this
  would be the current value of the building itself, which according to the Town Lister's is
  about \$1.5m. We decided against a formal appraisal due to cost and the availability of
  such professionals, and feel this is an accurate data point for us to use.
- Eric updated a list of staff requirements for town offices that was created by the first Town Hall Committee.
- Ray made a comprehensive list of potential relocation options including space to rent, purchase, and/or construct.
- We also met with Alita Wilson, Executive Director of Pentangle, who informed us that there are (at least) two bank accounts in existence that hold funds meant for Town Hall-related renovations. One of which is managed by the town, and holds funds from a donor specifically earmarked for HVAC improvements should they be undertaken (\$250k) and one managed by Pentangle (I actually don't remember how much this one holds but don't think it matters). As both of these accounts were created in response to the work of the first Town Hall Renovation Committee, we recommend treating these conservatively.
- During this time, Town Offices have also shifted and been reallocated to better serve their functions.

Given the cost of further investigation and the pending planning and goal setting to be undertaken by the boards this Spring, as well as the timeliness of other projects coming in front of the taxpayers this year, our recommendation is to postpone further work until we have collectively agreed on goals and priorities for the Town. It is likely that our ideal solution requires further strategic planning.
