Location: 29 River Street

Proposed Development: To renovate exterior of single-household dwelling.

Gary Moore explained the house will have the front porch removed and a portico will be added. The shutters will be changed from plastic to operating wood shutters. The goal is to make the home appear historic. Gary explained the pilasters are now plain instead of fluted like originally planned per Design Advisory's suggestion.

There will be a new covered entryway at the rear of the home. The existing dormer over sliding glass door will be replaced with a shed dormer and sliding glass doors will be removed. They will be adding a fireplace on the back and side and a stone façade along the foundation. The asphalt shingle roof will be replaced with shake shingles on the front.

The board agreed with the change to square columns on front and square pilasters on the corners.

Gary Moore mentioned the rear roof and garage will have standing seam roof, the cedar shake shingles will be on the gables and front of home.

Steven Bauer asked if the one window on rear over back entrance will have shutters and Gary Moore explained that window is on edge so no room for shutters. The Board agreed it is not visible and does not require shutters on that one window.
